

Department of Energy

§ 109-1.5108-2

§ 109-1.5105 Identification marking of personal property.

(a) Personal property shall be marked "U.S. Government property" (if marking space is limited, property may be marked "U.S. DOE") subject to the criteria below. The markings shall be securely affixed to the property, legible, and conspicuous. Examples of appropriate marking media are bar code labels, decals, and stamping.

(1) Equipment and sensitive items shall be marked "U.S. Government property" and numbered for control purposes.

(2) Administratively controlled property and other personal property susceptible to unauthorized personal use should be marked "U.S. Government property" and numbered for control purposes.

(b) Personal property which by its nature cannot be marked, such as stores items, metal stock, etc., is exempted from this requirement.

(c) To the extent practicable and economical, markings shall be removed prior to disposal outside of DOE, or, if removal is impractical, additional permanent markings must be added to indicate such disposal.

§ 109-1.5106 Segregation of personal property.

Ordinarily, contractor-owned personal property shall be segregated from Government personal property. Commingling of Government and contractor-owned personal property may be allowed only when:

(a) The segregation of the property would materially hinder the progress of the work (i.e., segregation is not feasible for reasons such as small quantities, lack of space, or increased costs); and

(b) Control procedures are adequate (i.e., the Government property is specifically marked or otherwise identified as Government property).

§ 109-1.5107 Physical protection of personal property.

Controls such as property pass systems, memorandum records, regular or intermittent gate checks, and/or perimeter fencing shall be established as appropriate to prevent loss, theft, or unauthorized removal of property from

the premises on which such personal property is located.

§ 109-1.5108 Personal property records requirements.

The contractor's property control records shall provide the following basic information for every accountable item of Government personal property in the contractor's possession and any other data elements required by specific contract provisions:

(a) Contract number or equivalent code designation.

(b) Asset type.

(c) Description of item (name, serial number, national stock number (if available)).

(d) Property control number (Government ownership identity).

(e) Unit acquisition cost (including delivery and installation cost, when appropriate, and unit of measure).

(f) Acquisition document reference and date.

(g) Manufacturer's name, model and serial number.

(h) Quantity received, fabricated, issued or on hand.

(i) Location (physical area)

(j) Custodian name and organization code.

(k) Use status (active, storage, excess, etc.)

(l) High risk designation.

(m) Disposition document reference and date.

§ 109-1.5108-1 Equipment.

An individual property record will be developed and maintained for each item of equipment.

§ 109-1.5108-2 Sensitive items.

Individual item records will be maintained for each sensitive item. Minimum dollar value thresholds for controlling sensitive items, if used, will be determined by the OPMO for each DOE organization in consultation with appropriate management officials. This threshold may be applied organization-wide or by individual contractors or location. Identification of types of property meeting the DOE-PMR definition of sensitive property should be the primary determinant of sensitive category, with dollar thresholds, if any,
